(I. N. S. Staff Correspondent)
LONDON, Sept. 7.—Swarms of American and British bombers and fighters blasted ceaselessly today at western Europe in the mounting series of pre-invasion assaults after the return of Royal Air Force heavy-weight bombers from a night attack on Munich, industrially important city in southern Germany.

Preliminary reports of the heavy attack on Munich, birthplace of Nazism, indicated the bombing was concentrated and effective, an official air ministry communique said. Cloud conditions over the target made full observation of results difficult.

Heavy Attack On Munich

The attack on Munich, seventh of the war by the R. A. F., involves a round-trip flight by England based bombers of 1,000 miles.

The city is a focal point for railways throughout southern Germany and lines also lead from there to Italy. The city is the site of numerous industries. Among the chief war products of Munich are airplane engines.

PA NEW OBSERVES

Michael A. Bober, Jr., of High street, received a grass skirt which the natives wear on his uncle, Pvt. Joseph J. Bober, who is stationed at Guadalcanal. It took the skirt two months to get here.

One week from today is election day in New Castle and Lawrence county. Republican and Democratic party candidates for city and county offices will be selected at the primaries.

Baby chicks are evidently still being shipped through the parcel post service. A lot of peeps could be heard at the post office on Labor Day, apparently giving a concert while in transit.

Some drivers still are unaware of the fact that left turns are prohibited at Mill and Washington streets. At least several such turns were noted yesterday.

Yesterday may have been Labor Day and a holiday but it was wash day as usual in many homes, Pa. New noted.

Parking congestion was more noticeable than ever in the downtown areas during church service time on Sunday. North street, which is being resurfaced, was cut off from parkers, which usually provides parking space for a large number of church attendees.

City workmen were engaged yesterday in completing the work of painting and warning signs on the streets near public schools, in preparation for the opening of schools tomorrow.

Traffic restrictions, due to gasoline rationing, etc., cut down much auto traffic over the Labor Day holiday, and accidents in traffic were very few in this section.

Judging from the amount of traffic of cars and trucks along East Washington street, Monday evening into the early hours this morning, there did not seem to be much conservation of gasoline.

Forty-Eight Persons Die As Hotel Burns In Houston, Texas

(International News Service)
HOUSTON, Tex., Sept. 7.—Forty-eight persons were killed and scores of others injured today in a fire which razed the three-story Gulf hotel building in downtown Houston. Firemen described it as the worst holocaust in the city's history. All available firemen and equipment fought the flames for more than two hours before the flames were finally brought under control about 3 a. m.

Many bodies were charred beyond recognition while other victims were killed when they leaped from a crowded fire escape to the street. Among the victims were many

elderly men, some defense workers and wounded war veterans. Witnesses said they saw the fire escape choked and blocked by men in uniform, some on crutches and a few with only one leg or arm.

Deputy Fire Marshal H. L. Matthews said the blaze apparently started on the second floor near the office, but that its exact cause was not immediately determined.

The extent of the death toll was attributed to the building's crowded condition. Spare cots were in every room and in the hallways and those trying to escape found virtually every exit jammed.

Firemen found four bodies stacked at the fire escape and windows.

PHILADELPHIA, Sept. 7.—The death toll in the wreck of the Pennsylvania Railroad's crack Congressional Limited, one of the worst train disasters in the past quarter of a century, rose to 62 today as salvage crews and rescue squads searched for still more victims in the mangled debris of shattered steel and wood.

(I. N. S. Staff Correspondent)
PHILADELPHIA, Sept. 7.—One of the worst disasters in U. S. railroad history today listed a toll of 56 known dead in the crash of the Pennsylvania railroad's crack Congressional Limited.

Of the dead, 48 bodies have been recovered and rescue workers have counted eight more trapped in twisted wreckage of the holiday packed train. The 16-car express was carrying 541 passengers from the nation's capital to New York.

In addition to the dead, 92 persons—men, women and children—were hospitalized and 24 others were discharged after being treated for painful but not serious injuries. Of those still in hospitals, many are so critically injured that little hope was held for their recovery.

Journal Box Burns Out
The wreck, which occurred at Frankford Junction, unlike most of the major train disasters, was not the result of a collision. Official descriptions agreed that an overheated journal-box burned out, causing the axle of one of the cars to drop and derail it and eight other following cars. An estimated 250 persons were in the cars which left the track.

Stalino Gravely Imperilled Today By Red Advance

**Russian Forces Battle Only
Seven And Half Miles
East Of City**

**DRIVE TOWARD
KIEV CONTINUES**

By NATALIA RENE
(I. N. S. Staff Correspondent)

MOSCOW, Sept. 7.—Stalino, chief German bastion in the Donets Basin, was gravely imperilled today as an advancing column of the Red army battled against furious Nazi resistance west of Makeyevka, captured suburb seven and one-half miles east of the city.

Northward other Soviet forces battle steadily forward toward the Nazi-held Dnieper river stronghold of Kiev after seizing Konotop, vital rail center 127 miles northeast of Kiev.

Makeyevka Seized
Seizure of Makeyevka, large steel center, and Konotop, highly lighted in a Soviet communique announcing liberation of more than 100 inhabited places in the Donets area, another 100 in the Konotop area and 90 south of Bryansk. Russian ground advances during the last 24 hours ranged from nine and one-half to 12 miles on the Donets front and the same distance on the Bryansk front. Meanwhile the Soviets improved their positions on the Snolensk front and west and southwest of Kharkov.

Makeyevka fell to the Russians only after a full day of furious battle marked by fierce street fighting in the Stalino suburb.

Among the more than 100 towns liberated in the Donets area were the railroad junctions of Kravatskaya and Slavyansk, and the town of Konstantinovka, where the Germans left hundreds of dead and a large amount of wrecked equipment on the battlefield.

Pursue Nazis
South of Bryansk, Russian forces pursuing retreating Germans from captured Konotop met fierce resistance as the Nazi desperately tried to halt the Soviet drive towards Belkhametz, next objective on the path to Kiev, Nazi Knieper river bastion.

The Germans rushed up large reinforcements to halt the drive toward Kiev and a furious battle developed along the Sien river but the Russians forced a crossing.

Between the Konotop and Bryansk areas, the Germans retreated in disorder and 800 were slain as the Russians by-passed a strongly fortified point and attacked the enemy from the rear. Another 1,000 Nazis were killed in a Russian advance from captured Khuto-Ikhalovsky.

F.B.I. TO PROBE TRAIN WRECKS

(International News Service)
WASHINGTON, Sept. 7.—The FBI today began an investigation into the wrecks of two of the nation's crack passenger trains—Pennsylvania's Congressional Limited and the New York Central's Twentieth Century Limited.

The FBI said that nothing has been developed so far to indicate that the wrecks were anything but outright "accidents."

The Interstate Commerce Commission also began investigations into the wrecks.

Defense Transportation Director Joseph B. Eastman said that results of the ICC probe would be submitted to ODT for further study. Pending completion of the report, officials declined to comment on possible causes of the wrecks.

**Blood Donors Aid
Victims Of Wreck**
(International News Service)
PHILADELPHIA, Sept. 7.—All through the night, Philadelphians continued to offer their blood to the Red Cross to aid victims of the Congressional Limited train wreck.

In addition hundreds of donations were offered to hospitals, but they were too jammed with injured and dying to accept. Where necessary, blood plasma from Philadelphia's blood bank was utilized to save the lives of men, women and children.

The Red Cross, however, accepted donations from 338 persons and, in addition, dispatched doctors, nurses, rescue squads and surgical dressings to the scene of the wreck and to relieve the staffs of nearby hospitals.

THREE KNOWN DEAD IN WRECK

(International News Service)

CANASTOTA, N. Y., Sept. 7.—Three persons are known to have been killed and possibly a score more injured shortly before 5 a. m. today when the Chicago to New York bound Twentieth Century Limited train left the tracks after the locomotive exploded.

Two of the dead were identified by officials as members of the train crew. They were: George Pierce, engineer and J. C. Larson, both of Syracuse. The third victim identified merely "Riker" of Albany, N. Y., a supervising fireman who was riding in the cab of the locomotive at the time of the accident.

ALLIED HEADQUARTERS, In The Southwest Pacific, Sept. 7.—American parachute troops dropped in a surprise assault behind Japanese lines in the Lae-Salamaua area of northeast New Guinea have seized the Nipponese landing field near Lae, a spokesman for Gen. Douglas MacArthur announced today.

The spectacular paratroop assault, led personally by Gen. MacArthur who watched from a flying fortress while his men alighted, trapped 20,000 Jap troops in the Lae-Salamaua front.

Largest Air Armada
The paratroops dropped to the ground from the largest armada of Allied air transports ever employed in the Southwest Pacific while heaped destruction upon Jap defenses positions in an unmerciful bombardment.

The flight by Gen. MacArthur, four-star general and supreme commander in the Southwest Pacific, marked the first time that an officer of his rank had exhibited such daring in leading his troops to the scene of battle aboard a flying fort.

The landings by the paratroops were made in the Markham Valley to the west of the Lae-Salamaua area. These units, in conjunction with the Allied forces which put ashore in commando-type landings (Continued On Page Two)

GIRL IS KILLED BY LIVE WIRE

**Plaingrove Township Five-
Year-Old Girl Comes In
Contact With Charged
Wire**

Love for flowers apparently cost the life of five year old Deanna Rose Brown, grand-daughter of Mr. and Mrs. E. S. Brown Plaingrove township, Slippery Rock road, R. D. 3, at 10:30 a. m. Monday according to Coroner T. F. Nugent. She seized a wire connecting a radio which a storm had blown across a charged electric wire. It struck her neck and the little girl was found to be dead upon her arrival at a physician's office here.

As soon as the girl was carried into the physician's office, he summoned the inhalator from the New Castle fire department, but efforts to resuscitate her failed.

According to Coroner T. F. Nugent, the girl liked to pick flowers and Sunday morning left the house to pick some. The aerial wire from the radio was hanging down. It apparently had been blown down and hung suspended across a live electric wire. She evidently grasped the wire or it brushed against her neck and the coroner reports that the shock caused death.

The girl made her home with her grandparents.

Deanna Rose was born in New Castle on August 11, 1938. She attended Plaingrove United Presbyterian Bible school.

Funeral services are to be conducted Thursday morning at 10:30 o'clock at the Brown residence. Interment will be in Plaingrove United Presbyterian church cemetery.

The body, removed to the R. L. Boyd funeral home, North Jefferson street, will be taken to the residence late this afternoon.

Lightning Kills Elmer Dinsmore

**Three Others Shocked During
Storm At Kendall
Farm Silo Filling**

Elmer McCarrell Dinsmore, 40 years of age was killed instantly by lightning late Saturday afternoon when he took shelter beneath a tree on the Kendall farm, R. D. 3, New Castle, eight miles from the city, according to Coroner T. F. Nugent.

With John Love, Albert McQuiston and Harvey Shaw who were helping to fill a silo on the George Kendall farm, Glenn road, he sought shelter when a storm arose. The bolt of lightning struck the tree and chest.

Although Shaw's legs apparently were somewhat "paralyzed" he managed to get to aid of Dinsmore and observed that life was either critically shocked or dead.

Taken To Hospital
Herbert Zook, William Sims and Fred Green and the latter's son, who also were helping fill the silo, took the injured men to the Jameson Memorial hospital.

Dinsmore was found to have been killed. However, the others, excepting Shaw, were able to leave soon. Shaw was treated and discharged Sunday morning.

Mr. Dinsmore was born in Jefferson county, Ohio, on August 16, 1903. (Continued On Page Two)

Air Raid Drill Here This Morning

New Castle underwent a daylight air raid drill this morning the seventh of such drills since the inception of the Office of Civilian Defense. The Blue Alert sounded at 10:10 o'clock and the All Clear went at 10:35.

Control center officials were on the job shortly after the Yellow Alert or first warning came through and shortly after, air raid wardens were on the streets.

For a fifteen minute period stoppage of traffic and pedestrians was effected with few violations reported. Less difficulty was experienced with the understanding of the sirens today and County OGD Director Louis B. Round said the air raid drill was upon the whole, satisfactory.

Cow Is Killed Near Bedford

Another black market cattle theft was reported to Sheriff Clyde D. Badger Sunday night when Nick Gibbs, a farmer on the Villa Marie road near New Bedford reported that someone had killed a cow on his farm and had taken the hide off and hauled the beef away.

Deputy Sheriff Thomas O'Brien and several State Police went to the Gibbs farm today to investigate the theft but no clues were left.

ALLIED HEADQUARTERS, In North Africa, Sept. 7.—Allied armies in southern Italy, scoring a five-mile northward advance from Bagnara, on the west coast of the Calabrian peninsula, have captured the port of Palmi, Gen. Dwight D. Eisenhower's headquarters announced today.

Occupation of Dellanuova also was reported as British and Canadian troops pushed deeper into the central portion of the peninsula while allied aircraft blasted important objectives in support of the advancing ground forces.

Dellanuova lies eight miles inland from captured Bagnara at the foot of the Apennine mountains.

Advance Continues
Continued advances were made by the British and Canadian forces throughout yesterday although progress was hampered by extensive enemy demolition and difficult country, the communique said.

Opposition thus far has been slight and the steady influx of allied forces to the Italian mainland is continuing. Headquarters announced.

Teachers Meet This Morning

**Meeting Held Preliminary
To School Term Opening
Wednesday**

Although the school year for the New Castle public schools does not get under way until Wednesday, September 8, the term started for the teachers of the system this morning when a general meeting of all teachers, supervisors and principals was held in the senior high school at 10 o'clock.

Some vacancies were noted in the group but apparently the New Castle system will be in fairly good shape for teachers as the term starts. What vacancies occur will be filled by substitutes.

Superintendent Frank L. Burton addressed the teachers today as they prepare for another year of work. In his remarks he reminded the teachers that this would be a difficult year, that conditions were not normal and that the fullest cooperation of every teacher in the system is required to make the term the success it should be.

Rev. Oliver W. Hurst, pastor of the First Baptist church, conducted the devotional period, reading scriptural passages and offering prayer.

Following the general meeting, Principal Clare B. Book of the senior high school met with his teachers and a number of principals held similar meetings. Others will be held this afternoon in the various school buildings.

Vacation time is a time of rest, at least that's what I've been told, the time when the shade trees are popular spots and the hammocks are all unrolled. The time to loaf from the rising sun till the dusk marks your time for bed, oh vacation time is a restful time, at least that's what somebody said. But when tomatoes keep piling up and the green corn keeps rolling in, vacation time is the time to can, and you never know where to begin. And you finish the week with a creaking back, and folks ask "did you have a time?" well I did my friends but it wasn't much rest, the weather is sixty-nine.

Charges Fraud In Construction

Suit Alleges Government Defrauded In Plant Building In Kansas

(International News Service)
CHICAGO, Sept. 7.—An informant's suit asserting the government was defrauded of \$30,000,000 in the construction of the Sunflower Ordnance Works at Eudora, Kan., has been filed in federal district court, Kansas City, Kan., the Chicago Herald-American stated today in a copy-right story.

The charges were made by William V. Ryan, Bolivar, Mo., former chief construction inspector on the project. The Herald-American in a summary of the suit, said:

\$81,000,000 Over Estimate
"The vital plant will be completed more than a year behind schedule and will cost \$81,000,000 more than original estimates."

"Charges aver that huge quantities of structural steel were pushed into a reservoir and covered with earth on orders of a contractor's foreman."

"That thousands of truckloads of lumber were dumped into a pit and burned at the rate of 150 loads a day over a 7-month period."

"Clods of earth, cinders and too little cement were used to mix concrete, causing floods and walls to collapse, which had to be rebuilt at government expense."

"Inexperienced farmhands, clerks and laborers were hired as plumbers, steamfitters and electricians and paid up to \$160 weekly to do skilled tasks for which they were wholly untrained."

"Faulty construction and materials caused roofs to cave in, a long water main to buckle, and fire hydrants to be installed so they stood six feet higher than adjoining roadways."

"That 1,000 tons of cast iron pipe was buried for the sole purpose of destroying it, causing a loss to the government in excess of \$100,000."

"Payrolls were grossly padded, in some instances carrying the names of employees for seven to ten months after they had left the project."

"Drunkness, gambling and radicalism were permitted to flourish among the employees, as many as 1,000 men being intoxicated on the job in a single day."

The charges were found in the files of the late Richard J. Hopkins, federal judge for the District of Kansas, who dropped dead in his courtroom in Kansas City last week.

Supporting Ryan's allegations are numerous depositions made by other employees before U. S. Commissioner Patrick W. Croker and statements taken by FBI agents recently assigned to the case, the Herald-American said.

LANDING FIELD OF JAPANESE NEAR LAE IS CAPTURED

and those pressing in around Salamaua to the south, cut off the enemy's escape.

Close Ring On Japs
"We have closed the ring at Lae and Salamaua," Gen. MacArthur declared on his return from the journey on which he saw his troops drop to the ground and seize control of a vital Jap stronghold protecting Lae.

"In a comprehensive air movement our paratroops in force have seized the western approaches along the Markham Valley. The operation completely surprised the enemy's ground troops engaged on the north and eastern flanks by our encircling forces which landed yesterday. Elements of four Japanese divisions aggregating perhaps a maximum strength of 20,000 at the beginning are now completely enveloped with their supply lines cut."

Gen. MacArthur Present
Gen. MacArthur explained his part on the mission by announcing on his return that "I did not want our paratroops to enter their first combat, fraught with such hazard, without such comfort as my presence might bring to them."

The chief of the United States Fifth Air Force, Lieut. Gen. George C. Kenney, and MacArthur's chief of staff, Maj. Gen. Richard K. Sutherland, accompanied the supreme commander in the southwest Pacific. They ride in two craft alongside MacArthur's fortress which headed the procession of transport planes bearing the paratroops.

Heavy Allied bombers, said the communiqué, attacked a heavily fortified position at Heath's plantation, the main northern bastion protecting Lae, with 1,000-pound bombs which reduced the Jap stronghold to ruins.

Attack bombers combed the Markham Valley with fragmentation bombs and more than 60,000 rounds of ammunition. The sorties silenced artillery positions and destroyed enemy installations at Gaboinkok, Munum, Yalu, Narakapor and Labu Island.

In the lone retaliatory attack by the Japs nine enemy medium bombers raided Tanahmerah township and Mapii post in Dutch New Guinea, causing only minor damage.

said it appeared that the attack at least approached the scale of Sunday night's 1,500 ton assault on Mannheim.

During the night intruder aircraft attacked airfields in France and destroyed two Nazi bombers in combat. Naval aircraft bombed light German naval vessels along the French channel coast.

The night operations cost the British 16 bombers, the air ministry said.

Nazi Convoy Attacked
The daylight assaults carried into the sixth day the latest cycle of joint British and American aerial bombardments to soften up western Europe.

An unconfirmed dispatch broadcast by the German news agency DNB said that 24 four-engined American bombers in the morning made a concentrated attack on a German convoy off Terschelling Island near the Netherlands coast but asserted there was no damage.

The air ministry said that Typhoon bombers in a morning attack surprised the Nazi defenses at Poix airfield in France and heavily straddled the dispersal areas, runways and buildings.

The continued furious air assaults prompted the authoritative British Press Association to declare significantly that the massive air attacks against western Europe are "comparable to the devastating blows that were the prelude to invasion of Italy."

believed that the Germans had recalled most of their subs to equip them with anti-aircraft guns but said "that's only an assumption."

With the new firepower, the German subs, using new tactics, are coming to the surface and fighting it out with blimps and planes used against them. It is known that a German submarine shot down one blimp.

Knox defended the Navy for not using the helicopter in anti-submarine warfare. He said that to date no helicopter has been developed that could carry sufficient gasoline, bomb load and crew to engage in anti-submarine patrol. He also stated that the helicopter had not yet been developed to a point where it could be driven at an efficient speed.

Use Inhalator On Small Girl Here

Use of the fire department inhalator was called into action Monday morning when little Deanna Rose Brown, after being fatally shocked

was hurried from Plaingrove township to a local doctor's office in an effort to save her life. Fire Chief James E. Thomas, Assistant Chief George Harper and Fireman Ray Hammond worked the inhalator for an hour in a futile effort to resuscitate her. The inhalator is part of the Rescue squad's equipment.

REPORT GIRL IS STRUCK BY STONE
City detectives today were searching for a youth with light hair who reportedly struck with a stone and knocked down Sylvia Finamore, 11 years old, of 719 Etna street, about 6:15 p. m. Labor day, on the Croton avenue hill.

According to the report made by the girl's aunt, Mrs. George Swadner, Cleveland avenue, the youth attempted "to drag her away." The girl assertedly sustained bruises on her head and knees. The girl was able to provide a fairly good description of her assailant according to the report.

ONE MORE WEEK

One week from today will be the day that a few people, out of many thousands, will be interested enough to go to the polls to vote. You hear a lot of people say, "Why should I vote? No matter who you put in office, things will be just the same." Can you blame them? The condition our country is setting into, with rules, laws and regulations that the makers of them, themselves, don't know what they mean, it is no wonder that people wonder where we are headed for.

But, we still feel that everyone should do his duty and keep his conscience clear, that he has tried anyway. It takes businessmen to run a big city, so vote for men who have been successful in business and in some way have shown that they have a little ability for the position for which they aspire.

If this country is ever to be saved for democracy, the common people with their votes, must rise up in defiance and put business men in office, and not politicians.

3RD WAR LOAN DRIVE FOR INVASION

Put a circle around the date—Thursday, September 9th. For that's the day the 3rd War Loan Drive starts.

On that day, you will be asked to go the limit to back our valiant fighting men. You will be asked to do your share in the greatest invasion the world has ever seen. Answer your country's roll call!

Your part is to back this invasion by investing in at least one EXTRA \$100 War Bond in September. That's in addition to your regular War Bond purchases. Invest more than \$100—a lot more—if you possibly can.

The job is big. Everyone must do his full share if we are to put this drive over the top.

War Bonds are the safest investment in the world. For your own sake, for your Country's sake, put every spare dime and dollar in War Bonds during the 3rd War Loan Drive.

Armour Ideas Make the Most of Meat

A New Flavor—Star Bacon & Broiled Peaches

Here's a brand new blend of two fine flavors! Just combine the rich, mildly smoked flavor of bacon with the juicy goodness of broiled peaches... and you'll have a taste treat that's quite to become a family favorite!

Allow 2 to 3 slices of bacon per person. And since you'll want fine flavor, we suggest you get Armour's Star bacon. For Star bacon is slow smoked over fragrant hickory and hardwood fires... giving it a mild, savory goodness that's just right!

Peel and halve 3 to 4 fresh peaches.

Spread them with 1/4 cup brown sugar, dot with Clovebloom butter and sprinkle with 1 tsp. lemon juice. Place on broiler rack 4 inches under heat unit and broil slowly 5-6 minutes. Add bacon strips to rack and continue broiling until lightly crisped and brown... about 6 minutes.

Serve the bacon and peaches on a big plate with squares of golden corn bread. It's a hearty meal that's different... and delicious!

The Parent Problem

By Garry C. Myers, Ph. D.

COAXING BABY TO EAT

Many mothers discover early that the baby who will not eat what is offered will eat occasionally when his attention is diverted to something else. Therefore, it is natural for the mother to resort to a variety of devices and then to slip the food into his mouth when he is off guard. Unfortunately this works for a little while and lures the mother into trying more and more new tricks. Yet in the long run this procedure fails and inevitable eating problems ensue.

I know something about this, for we were led into this foolish way with our first baby (when we knew less about the problem than we know now). For example, he would eat a few morsels of cooked cereal fed him through the back of his chair. Sometimes he would eat it as "dirt put in by a steam shovel."

At other times he would eat a bit as a rabbit of Johnny Chuck. So also he would take a few sips of milk for Daddy, a few for Mother, a few for Grandma and so on. No device lasted long and our inventive resources soon were exhausted.

A Serious Matter

It all looks very foolish to me now, but it was a serious matter then. We got nowhere till we quit these ways and ended the meal as soon as the child indicated he wanted no more of what was offered. We must have done these things when he was nearly two. As soon as we let him feed himself and quit fretting about it eating, we won. That child is a father now of three little girls.

A father writes of a similar case: "Our baby 22 months old eats very little to begin with, and what he eats requires much coaxing on our part and a kind of bribery. His mind must be distracted with other things (a book, toy, etc.) while his mother sneaks in with a spoonful now and then."

"And then it's nothing for him to vomit everything that had been so painstakingly fed him. And that's the way the meal very often ends, with the baby's stomach full empty and his mother much distraught. It seems the baby has acquired the trick of making himself vomit at will, even at the sight of food. We've enclosed a stamped, self-addressed envelope."

I am sending you my special bulletin on "Eating Problems." Please study it and try to follow it patiently and you will almost surely succeed.

The vomiting is not at all unusual. It began when the baby had food pushed into him when he was off guard, faster than he could masticate and swallow, and he soon discovered vomiting to be a protective measure.

By all means let that child feed himself with bare hands or spoon, as he prefers. Don't worry about the mess. Think solely of cultivating an appetite in him. Then he won't put into his mouth what he doesn't want or more of anything than he wants.

If after you have followed the bulletin to the letter for several days, you still see no progress, consult your doctor.

Solving Parent Problems
Q. In our Sunday school and church there is considerable responsive reading but it usually is done very poorly.

A. This is not peculiar to your Sunday school and church. Why should you expect them to do well? They had at school practically no training in this useful art. I wish the school would bring back reading "recitation."

Q. What changes in the physical education program of our high schools would you recommend.

A. Abolition of interscholastic athletics (competing of one school with another) and development of an honest-to-goodness intramural program (competitive games within the same school) to reach all students, girls as well as boys; and daily calisthenics (setting up exercises similar to those used in the armed forces) from the first grade through college.

Q. Please show me how to help my eight-year-old daughter to overcome intense fear of an electric storm.

A. Let all the adults evince courage and calmness at such time, with no one laughing at her fear, but all trying to help her keep her attention on other matters during the storm. My special bulletin on "Fears" may be had by writing me at 235 East 45th street, New York City, enclosing a self-addressed envelope with a three-cent stamp on it.

Just Folks

THE NEAR-BY JOYS

These things I know, for I have seen:
How lovely can be gardens small!
How calm and cool that lawn of green,
Where evening's length'ning shadows fall.

I know the heart can be beguiled
Of every sting and ache of care
By the sweet laughter of a child
That races through some gladden street.

Of this I'm sure: off all desire
No greater favor life bestows
Than friends to share our food and fire.

When the harsh wind of winter blows,
And this I know: men never find
On earth, however far they roam,
A truer source of peace of mind
Than that which marks the
bounds of home.

HINTS AND DINTS

Sun sets tonight 7.24. Sun rises tomorrow 6.33.

In time of war new drugs are being discovered. Many things happen in war that make the old drugs not so good.

It seems there is a lot of material wasted in the making of sleeves. Many people keep their sleeves rolled up most all the time if it is only to keep cooler.

Little Willie: Pa, what is a financier? Pa: A financier, my son, is a man who is capable of inducing other men to pile up a fortune for him.

LUCKY BREAK
General (on telephone): "Do you know to whom you are talking?" Private (on other end): "No, and I don't care!" General: "Well, the General!" Private: "I'm, do you know who I am?" General: "No!" Private: "Thank heaven for that!"

These days it's a good thing to carry an identification card. No one knows what will happen when one is traveling and a card will help a lot to identify the injured. Many do not carry any identification cards.

Now a lot of people are driving their cars just as long as they can get gas.

The elderly gentleman came home with a package, and his wife at once wanted to know what he had. "I had an awful time getting this," he replied. But after a lot of trouble I finally got a barometer."

"What on earth do you want it for?" demanded the wife. "This barometer will tell me when it is going to rain," he explained. "Well I never heard of such extravagance," she stormed. "What do you suppose the good Lord gave you the rheumatism for, anyway?"

Then we have all heard of the two scientists who proved that the world isn't round and turns over every 24 hours. They put a pumpkin on a stump and sat all night to watch it.

She who is born a beauty is half married.

Heard on Mill street as two women were waiting for a bus: "Where all-about you goin' at?"

SAME OLD HABIT
A story is told about a woman visitor at a camp near San Diego who was trying to locate an officer, an old friend of her family. "He may be in officers' mess," she was told.

"I expect he is," the woman said, "because at home he was always in some kind of a mess."

WHAT A SLAM
Judge: "After I've written an opinion, I have trouble going to sleep."
Wife: "Why don't you read your opinion?"

More men want wedding rings for themselves, and as the manufacture of gold is restricted it looks as if the bridegroom will have to accept a plastic ring.

At the women's club they were discussing the future of women in politics and even toyed with the intriguing thought that a woman president might be elected. But one member spoke up.

"I don't think we'll ever have a woman president," she said. "You see the constitution says the president must be at least 35 years old."

Why should you care if you are not talked about? All talk is advertising that will help you on the way. If you are not talked about you will be forgotten.

Right now there are three ways, the right way, the wrong way and the way Washington does it.

To know the truth well, one must have fought it out.

A visitor to a crossroads store that ordinarily carried a small stock of everything noticed all available space piled high with barrels and bags of salt.

"Lem," the visitor asked, "do you sell a lot of salt?"

"Well, no," was the reply. "I don't sell hardly any." He said in a moment. "But there was a fellow in here last week—he sure could sell salt."

COULDN'T PLAY PIANO

We heard about a woman who had advertised for a cook. A Negro woman answered the advertisement. The Negro woman started to explain what she wouldn't do. She said she wouldn't sweep, move the rugs, clean up the bathroom and do any of the laundry work.

"Do you play the piano?" the woman asked.

"No," was the reply. "Well, I can't play you then," she said, "because I want someone to entertain me while I do the work."

Soldiers are buying more and more war bonds. They know what it means and how it will help win the war. Hats off to our soldiers!

As a rule an independent voter don't like any of the candidates very well.

When you write a letter or send a package be sure the address is right. Thousands of pieces of mail are not delivered because the addresses are not right.

The charity which begins at home is seldom appreciated.

"We are being sued again by a farmer, the division super's secretary announced.

"That's the trouble with our express train schedules, complained the super. "They go so fast they kill these cows that farmers carelessly permit to wander on the right-of-way."

"It isn't that," explained the secretary. "This farmer claims the trains go so slow that passengers lean out the windows and milk the cows along the roadway."

Peace flourishes when reason rules.

This really happened here last week. A sailor whose name is Jungk, introduced himself to a girl at a U.S.O. dance.

"Are you kidding?" she demanded hotly. He produced his liberty card to prove it, and then asked why she had been surprised.

"Well, my name is Rubbish," she explained, and showed him her driver's license as evidence.

Scott says hams are best if cured for a year. By that time we'd be cured of the eating habit.

The Japs have no word for retreat, but who cares so long as they high-tail out of there?

It is dangerous to leave whole regions without a doctor. They might find out they don't need any.

Wife: "It's the furniture folks come for the piano, Henry."

Husband: "But I gave you the money to pay the next installment."

"Yes, I know, dear; but don't say anything. I'm going to pay them as soon as they get it downstairs. I've decided to have it in the sitting room."

Money still talks. It says: "I just stopped by for a minute on my way to Uncle Sam's."

If they can talk for hours about things they did in the past, they are getting old or they are bridge players.

CALL FOR MISS LAURIE
At a village concert for troops, men from the near-by camp turned up in force.

The local soprano was obliging with "Annie Laurie," and the soldiers were beginning to get restive. As she reached the lines: "And for Bonnie Annie Laurie I'd lay me down and die," a voice came from the back of the hall:

"Is there a Miss Laurie in the house?"

The leader must watch where the crowd is going and then get ahead of it. He actually makes a profession of being led where others wish to go.

Who's Boss, Churchill Or Roosevelt?
Prime Minister Defers To President
Mrs. Roosevelt Has Traveling Uniform

By HELEN ESSARY
Central Press Columnist

WASHINGTON, Sept. 7.—People who ought to know tell me that contrary to some opinion:

Mr. Roosevelt is definitely not an Anglophile. He is intensely pro-American. In his bones, a complete American Nationalist.

The true Anglophile loves British Imperialism. He believes in the divine right of the British upper classes.

Mr. Roosevelt has not shown that he believes in the divine right of the upper classes of the United States. Certainly the upper classes of the United States do not believe in Mr. Roosevelt. They say he is too much interested in giving "trifling lower class people something for nothing."

I understand also from intimates of the president that Mr. Roosevelt has no intention of letting Mr. Churchill outsmart him at the peace table or in the post-war world. (Many people are afraid of this.) Mr. Churchill defers to Mr. Roosevelt. Otherwise Mr. Roosevelt could not get on with Mr. Churchill. Mr. Churchill's popularity in this country is greater than Roosevelt's. Roosevelt is so popular in England that Roosevelt haters return from a visit to England so influenced by the English attitude toward Mr. Roosevelt that they are ready to cheer for the president.

The Roosevelt's in their travels propensities are like that nursery game Tiddley Winks! Whoops!... and they pop up almost anywhere, always with the mind on the old home place, 1600 Pennsylvania avenue.

Whoops!... they're back again doing over the furniture for another four years in the White House.

Some smart characters, having given up the idea of doing anything about the fourth term, are laying snares against the fifth term.

One of the new surmises for 1944 is that when Mr. Roosevelt is re-elected this—Sumner Welles will be on the cabinet slate as secretary of state.

The equal rights amendment to the constitution now pending in the United States senate causes a flurry of talk in almost every group of up-and-coming Washingtonians.

Quiet characters rise up and make parlor speeches, such as: "I'm against the amendment. I'm a woman government officer chief. I have plenty of rights now. Really more than my share. As things are, I can keep my cake and eat it too. Actually I'm a hang-over from the curl paper era into the permanent wave era. I want all the rights of a woman, but I don't want to give up the special consideration I get because I'm a woman."

"Women who feel as you do," this from an amendment advocate, "overlook the fact that we're fighting this war for freedom of equality for everybody. The purpose of the horrible struggle is to give every individual, regardless of race, color or creed a chance for a decent existence."

At this point I quote myself, and an observation I made on a recent (Continued On Page Five)

AS A RESULT, a blundering and bad peace has been made—a peace that inevitably again led to war. Such a peace will follow this war if we go about making it in the usual way and without a transition period.

The other inducement to peace is that out of five thousand years of war an illusion has been built up in the human mind that war can be (Continued On Page Five)

Looking At Life
By ERICH BRANDEIS

Once again I must thank the OPA for a pleasant incident.

To the millions of words issued by it to the newspapers as publicity most of which goes into the waste baskets... it has now added a 2500-word press release announcing a nation in the present highly inflated prices of cabbage seeds.

After much verbosity and many almost unintelligible sentences and paragraphs, appears this paragraph under a subheading "Definitions":

"Cabbage seed" (Brassica Capitata) is the seed used to grow cabbage."

In certain that someone in the OPA is going to be called on the carpet for writing a sentence that even a child can understand.

There's only one mitigating circumstance that may keep him from getting fired—the "Brassica Capitata" in parenthesis [brackets to you if you think I'm getting hifalutin with my words.]

But it's only fair to admit that the government is not alone in using ten words where two might do.

Have you ever read your lease?

Have you tried to decode an insurance policy, a legal document, or even a prescription?

I am told a story about the late Ray Long, famous magazine editor, who was called to Irvin S. Cobb, who was then in London.

Rush three-thousand word story for next issue.

And Irvin called back:

"Haven't time for three thousand word story. Can you use ten thousand?"

If the yarn isn't true, I hope Cobb, who is now among the "Who's Who" in Hollywood will correct me.

At any rate, it goes to show that it's easy enough to be long-winded, but it takes time and thought to be brief.

Too many people talk first and think afterwards or not at all.

The sermon on the Mount and the Gettysburg address didn't take as many words as that OPA release on cabbage seeds.

Which do you think will live the longest?

And by the way, look at the volumes that have been written about the three little words:

"I love you."

Psalm 91:2.

trip to a Pennsylvania industrial plant. The bosses at the plant objected to women workers.

"Women are responsible for most of the absenteeism," said the top boss of the plant. "They stay away to look after their children or their sick mothers. Or because they don't feel well. Some get emotionally upset because their husbands threaten divorce if they are not at home more often. I'll have to admit women are good in some shops. They're getting tougher by the minute, yet, doggone it, three men will stop work anytime to help a woman lift something heavy."

"You don't ask a frail man to lift a railroad tie alone," I said. "Why should you expect a woman to do similar heavy work?" The plant boss only shook his head and muttered. "Believe me I'll be glad to get them back in their homes where they belong. They get on my nerves."

ended and peace made by signing a piece of paper. Instead, these hastily drawn documents—drawn while hate is still hot and emotion runs high—have usually become the prospectus of renewed war.

OF COURSE, the essential foundation of Mr. Hoover's program is agreement among Great Britain, Russia and ourselves. Everything depends upon that and, of course, the President and Mr. Churchill are fully aware of the fact—fully aware, too, that this agreement must be made before Germany is beaten and the war ends. To this end, they seek a conference with Mr. Stalin. Russian cooperation is completely indispensable—but to gain that cooperation some very practical measures must be taken, concessions made and compromises effected. The problems ahead are multitudinous and vast. Victory comes first, of course, but victory is now inevitable and to delay agreement upon a preliminary postwar program until the surrender comes is obviously perilous in the extreme.

MR. HOOVER offers a concrete, logical plan that will hold the world together while the right solutions of the great basic questions are sought. It would be fine if the President, instead of rejecting it because Mr. Hoover proposes it, should make it his own—or at least use it as a base. It would be fine, too, if the Republican policy planners who meet this week at Mackinaw Island, should follow suit. Thus the whole business of foreign policy could be eliminated from the coming campaign. Thus, public sentiment would be consolidated. Thus, the nation would be solidly behind its President in dealing with international affairs and the political fight here next year centered, as it should be, upon domestic issues.

HONOR BRIDE-ELECT; WEDDING DATE TOLD

Mrs. Charles Padula, of 410 Hawthorne avenue, gave a party in honor of her daughter, Miss Carrie Padula, on Sunday evening.

Miss Padula will become the bride of Lieutenant Vito Marguriet, of Camp Forrest, Tennessee, son of Mr. and Mrs. Philip Marguriet, of Pittsburgh, on September 9.

The ceremony will take place at St. Vitus church, at 9 in the morning and will be an open church wedding.

Among the guests at the party were Misses Marjorie Harris, Helen Allen, Betty Raney, Eleanor Book, Charlotte Hake, and Virginia Szeko, members of her graduating class of 1942 of the Jameson Memorial Hospital School of Nursing.

A splendid spaghetti dinner was served at 8 o'clock by the hostess, who was assisted by her daughter Angeline.

Favors were miniature baskets with "bride and groom" therein, with names of bride and groom elect, and wedding date.

The evening was spent informally. The honored guest was the recipient of a number of lovely gifts.

Navy Nurses Visit

Ensign Eileen McPeak and Ensign Mary Thomassy, both of the Navy Nurses Corps stationed at Philadelphia Naval hospital, spent Saturday and Sunday at their homes here.

Both young women were recruited recently for service with the navy medical corps by the Lawrence county chapter of the American Red Cross.

Ensign McPeak is the daughter of Mr. and Mrs. Charles McPeak of 1026 Winslow avenue.

JOHNSON BRONZE WORKERS PICNIC

Estimate 3000 Attend Annual
Outing Of Local Plant
On Saturday

There isn't nearly as much corn and wieners in New Castle today as there was Saturday morning. After the Johnson Bronze company picnic which was held in Cascade park Saturday, September 4, the corn and wieners market was down as low as the mercury on a February morning.

One thousand dozen of corn was piled high on the picnic tables, and for each ear of corn there was a wiener. Lead end to end the wieners would have made a chain from here to there and back again with a few left over.

The crowd in attendance was about 3000 which gives you an idea of what real appetites are. Employees and their families began gathering early in the afternoon in the park and from 2:30 to 5 o'clock there was free dancing in the pavilion. A floor show was presented with Harold McCarty serving as master of ceremonies. Among the entertainers were the Keystone quartet, Russ Graham, Georgine Mannick, Benny Richardson, Margie and Nilo Black, Betty Curry and Joe Caprone.

For the benefit of the second shift employees the show was repeated in the grove at 6 o'clock. In the afternoon a sports program was held for the youngsters but no records were kept of the winners.

It was probably the biggest and best picnic the Johnson Bronze employees have ever held. E. D. Hawk, general chairman of the day was satisfied with the success of the picnic as were his associates.

In the meantime the corn and wieners market is slowly coming back.

**SIXTY-TWO NOW
KNOWN DEAD IN
TRAIN WRECK**

(Continued from Page One)

fire department flood lamps, accentuated by the eerie flames of acetylene torches, the crews of four work trains labored through the night to free those trapped and to clear the right-of-way of wreckage.

All the dead so far accounted for were in the seventh and eighth coaches, railroad officials said.

The express split in two going 45 miles an hour rounding a curve near the cut-off carrying trains across the Delaware river to Atlantic City. The derailed coaches smashed over four main trunk-lines, ripping tracks and tearing up ties.

One coach cut in two, the sides and top torn off, and the car tore over rough ground to the edge of an embankment. Two others jack-knifed into a "Y" spreading across the tracks and knocking down a tower carrying high tension wires.

A fourth coach collapsed as if it were made of plywood, trapping or crushing virtually all of its occupants. Rescuers tried to reach the injured and dying by cutting holes in the steel cars with acetylene torches.

In several instances, doctors, unable to reach trapped sufferers administered soothing morphine through windows and gapping holes in the cars. Often, the screams and moans of the injured and dying rose above the noise and confusion of the rescue work.

With wreckage scattered over four tracks bent like hairpins, traffic on the vital war artery was tied up for several hours. Meanwhile traffic to Philadelphia was detoured over tracks of the Reading railroad.

Trains to the west were sent via Trenton to Coatesville, Pa.

Emergency calls brought physicians and nurses to hospitals, unable to cope with the sudden disaster. Blood plasma from the Red Cross was sent to hospitals and to the scene of the accident.

A call to the army and navy for aid in policing the wreck brought soldiers and sailors armed with sub-machine guns who patrolled the area keeping spectators at a distance.

Within an hour after the wreck, 150 persons had been treated at the three main hospitals in the Frankford Junction area.

PORT OF PALM IS CAPTURED BY BRITISH FORCES

(Continued From Page One)

The Naples area were kept under continued bombardment by the allied air arm.

Medium bombers, supported by long-range fighters, blasted the airfields at Capua and Grazzanise in strength, headquarters said, destroying 10 Axis craft which attempted interception.

Light bombers at night attacked the railroads and airfield at Capua. Yesterday fighter-bombers attacked targets in southern Italy.

Seven out of a force of Axis raiders which attempted to attack Bizerte, Tunisia, were destroyed last night.

Four allied planes were reported missing from all operations.

A naval communiqué said that sea support for army units crossing the strait of Messina to Calabria is continuing without interruption.

One destroyer of the British navy, after passing through the strait of Messina, provided the necessary gun support on the left flank of the eighth army in the Bagnara area, the communiqué said.

The light bomber attacks included raids on railway yards at Aversa and the communications center of Altamura. Night bombers attacked the railway yards at Battipaglia.

The capture of Dellanovoa followed an advance over a twisting road from Bagnara through the small villages of Pellegrina, San Barenia, Sinopoli, Cosoleto, Acquaro and Giorgio. The eighth army now is nearly halfway across the Italian toe, but moving slowly to allow supplies and reinforcements flowing from Sicily to keep pace with its advance.

Expect Easier Advance
Although the advance beyond Palmi is expected to be easier because of the low coastal plateau upon which the British entered there, Gen. Sir Bernard Law Montgomery is moving cautiously so that the Axis will not be able to catch him off guard with a sudden counter-thrust.

Spearmen of Gen. Sir Bernard L. Montgomery's eighth army drove their way into the foothills of the Aspromonte mountain range in the center of the peninsula. The deep-

est salient was made mid-way along the front from Palmi south to Melito when the allied troops captured San Stefano.

At either end of the north-south line the Britons and Canadians moved inland to clear the mainland coastal area along the strait of Messina of enemy units. One force advanced eastward along roadways just east of Bagnara in the north while other allied troops pressed their advance in the Melito area at the tip of the Italian boot.

The steady advance, admittedly slow, enabled the allies to open the Messina strait to their own navigation by removing Axis batteries along the shoreline. Clearing of the coastal area of German and Italian forces helped the allied command to speed up the supply and reinforcement of troops already ashore in Italy.

The operations continued to be purely British, headquarters announcing that maintenance and reinforcement of the army operating on the Calabrian peninsula by "vesels and craft of the royal navy" continues satisfactorily.

Mussolini is said to have been given refuge in a place where he can't be reached by the Germans. Considering that they didn't get across the English channel, he wouldn't need to go far.

Thursday Sept. 9

THE 3rd WAR LOAN DRIVE STARTS —TO BACK THE INVASION!

What you will be asked to do—

MARK WELL the date—Thursday, September 9th. For on that day, you must answer to your country's call.

On that day, the 3rd War Loan Drive opens. To you—and to every other true American—a clarion call goes forth to rally to the support of our flag.

You will be asked to back our fighting forces to the very limit of your resources. You will be asked to go ALL-OUT FOR INVASION by investing in EXTRA War Bonds—more War Bonds than you perhaps think you can possibly afford.

To meet the national quota, every individual in the country who earns a wage or draws an income or has accumulated funds must invest, if he possibly can, in at least one EXTRA \$100 War Bond. Those who can, must invest more—thousands of dollars' worth more. Each and every one must do his full part.

Scrape up the money from every source you can . . . turn in all the loose cash you carry with you . . . dig out what you had tucked away "just in case." Go without pleasures, luxuries, even necessities this September. And give our fighting men the things they need to fight with—and win.

These men are throwing everything they have into this fierce

invasion push. They are giving their blood, their lives. No one can put a price on such courage, self-sacrifice, devotion. But you can show you're with them to the limit! You can say it with Bonds . . . EXTRA Bonds this month.

World's Safest Investments

For this 3rd War Loan, you will be offered your choice of various government securities. Choose the one that fits your requirements.

United States War Savings Bonds Series "E"; gives you back \$4 for every \$3 when the bond matures. Interest: 2.9% a year, compounded semi-annually, if held to maturity. Denominations: \$25, \$50, \$100, \$500, \$1,000. Redemption: Anytime 60 days after issue date. Price: 75% of maturity value.

2½% Treasury Bonds of 1964-1969; readily marketable, acceptable as bank collateral. Redeemable at par and accrued interest for the purpose of satisfying Federal estate taxes. Dated September 15, 1943; due December 15, 1969. Denominations: \$500, \$1,000, \$5,000, \$10,000, \$100,000 and \$1,000,000. Price: par and accrued interest.

Other securities: Series "C" Savings Notes; ½% Certificates of Indebtedness; 2% Treasury Bonds of 1951-1953; United States Savings Bonds series "F"; United States Savings Bonds series "G".

WACS WILL JOIN ARMY IN ITALY

To Enter Invaded Country As Soon As Conditions Are Stabilized

By MARTHA KEARNEY
(U. S. Staff Correspondent)

WASHINGTON, Sept. 7.—WACS will join the army in Italy and Sicily as soon as conditions there are sufficiently stable to warrant the transfer of Allied headquarters, it was disclosed today.

WAC members gained "legal" sanction to move into combat zones with the deletion of the "non-combatant" clause from the corps' charter Sept. 1 when the WAC became an active part of the regular army.

An army spokesman emphasized, however, that war department policy precludes sending women into zones of enemy fire. WACs in North Africa, it was pointed out, received the brown and green campaign ribbon only because their area accidentally came within the perimeter of enemy action.

Officials said that most WAC work will be performed at field headquarters behind the lines. A lengthy roster of WACs who have done important work on combat plans, codes, ciphering messages and similar activities for the Sicilian and Italian invasions has already been compiled.

Capt. Ruth Briggs, of Westley, R. I., rates the title of "top WAC in North Africa," she is secretarial aide to Maj. Gen. Walter B. Smith, chief of staff at Allied headquarters. Before joining the WAC, she was employed at a light power company in Westley.

Two Nazi Prisoners Escape In Colorado

(International News Service)

CHICAGO, Sept. 7.—Spencer J. Drayton, head of the Chicago Federal Bureau of Investigation office, today asked midwest police officers and citizens to be on the lookout for two Nazi prisoners of war who escaped Sunday from a prison camp at Trinidad, Colo.

They were described as Lieut. Erb Horst, 23, five feet 8½ inches tall, 158 pounds, brown hair and eyes and fair complexion, and Lieut. Karl Gallwitz, German air force, same height and weight as Horst, gray eyes, brown hair, fair complexion.

Health Talks By DR. W. A. WOMER

FEAR

Fear is a miserable sensation. It is uncomfortable. It is bad.

A good many children are taught to be afraid. They are told that father will beat them when he comes home.

They are told that the doctor will cut their ears off. Just imagine.

Instead of being taught that the policeman is a friend and protector they are taught to be afraid of him.

They are afraid of the teacher.

They would not be much more afraid of the electric chair than to be sent to the principal's office.

Mental hygiene tries to do away with fear.

Children should be taught caution but not fear.

They should know that a uniform is an indication of safety.

Teachers should be friends and helpers instead of taskmasters and tyrants.

A good teacher is a gift from heaven.

Sarcasm and tantrums and bullying are usually not as helpful as patience, sympathy and kindness.

Fire Destroys Power Shovel

Motor And Cab Burned; Shenango Firemen Called And Extinguish Flames

Power shovel, worth approximately \$5,000, was ruined by flames at four o'clock, Saturday afternoon, six miles east of New Castle on Route 422, according to the State police. The flames were extinguished by the Shenango township fire department.

The shovel was operating upon its own power from Lorraine, O., to Kit'aming and caught fire. The operator, Ralph Burbeck, Springfield, O., leaped from the cab but was unable to extinguish the blaze.

The Shenango township fire department was summoned and succeeded in putting out the flames of the power shovel after the motor and the cab had been destroyed.

Report Plane Is Three Days Overdue

(International News Service)

PITTSBURGH, Sept. 7.—Allegheny county airport officials said today that a private two-seater plane carrying a pair of army officers from Pittsburgh to Knoxville, Tenn., was three days overdue at its first objective.

The ship left the airport here Friday afternoon and should have reached Charleston, W. Va., two hours later, but there has been no word of the plane since it took off. Charleston officials contacted Pittsburgh authorities to report no sight of the two-seater. The plane was piloted by Lieut. J. W. Hinson and carried as a passenger Lieut. Col. T. T. Crenshaw, both of Knoxville.

TEMPLETON ATTENDS ARENA DEDICATION AT CAMP SHENANGO

John H. Templeton represented the Masons from New Castle and Lawrence county at the dedication of Camp Shenango's new amphitheatre and sports arena on Saturday. Grand Master John A. Lathwood headed the dedicatory program, which also included Governor Edward Martin and General Hugh Shannon, retired, and other Masonic officers as speakers.

The huge, 10,000-seat arena consists of a large stage, baseball field, portable boxing ring, with complete staging and lighting equipment. It was donated to the camp by the Masonic military and naval service committee.

Medusa Foreman Given Recognition

Somewhere in Uncle Sam's armed forces are three boys named Rosinsky who are mighty proud of their dad—Orson Rosinsky—who just has been made a "Safety Ace" by the National Safety Council.

Orson Rosinsky, a foreman at the Manitowoc, Wis., plant of the Medusa Portland Cement Company, earned his "home front hero" accolade for inventing and perfecting more than 20 safety devices which have been effective in rooting out accidents in the Manitowoc plant.

Now 52 years old, Mr. Rosinsky has demonstrated a keen interest in safety for 20 years and has served as chairman of his plant safety committee. Among his inventions are an oil box which prevents oil from dripping on the floor and a cooler housing trap door, which eliminates the hazard of workers getting burned with hot clinkers.

Mr. Rosinsky has one daughter in addition to his three sons who are in the service.

Applications For Seadrome Project

Permission To Construct Series Of Anchored "Landing Fields" Asked

By FRANCES D. BASS
(U. S. Staff Correspondent)

WASHINGTON, Sept. 7.—Formal application has been made for recognition of the widely-publicized seadrome project in the network of post-war air routes, it was learned today.

The Pennsylvania-Central Airlines, sponsors of the seadrome route has asked the civil aeronautics board for permission to construct a series of anchored "landing fields" in the North Atlantic searoute.

Termed "fantastic" by some air experts, PCA president C. B. Munro proposed the scheme several months ago following a series of conferences with Edward Armstrong, inventor of the project. Munro described the seadrome idea as "feasible and economically practical."

Armstrong said the plan calls for the construction of three \$10,000,000 steel-supported seadromes, each with a displacement of 64,000 tons. Proposed seadromes would be 3,500 feet long—three times longer than the largest ship ever built—and would include two decks beneath the landing pier for passengers, repair and storage use.

Armstrong contended that intermediate, mid-ocean "landing fields" would reduce fuel space in airplanes and increase payloads. He estimated that overall passenger and freight capacity would be increased approximately 400 per cent.

Opponents of the scheme cite the ever-present need of keeping landing decks free of ice and sleet, and insuring stationary positions of seadromes in rough weather.

SCHOOL SEEKS TO BUY STEVENS HOTEL

(International News Service)

CHICAGO, Sept. 7.—Officials of the Illinois institute of technology revealed that the school submitted a bid to the war department for the purchase of the Stevens Hotel property.

Henry T. Heald, president of the institute, said Illinois Tech. would use the property, largest hostelry in the world, as a center for its various departments now scattered throughout the city.

Illinois Tech is the only announced bidder for the 3,000 room structure, which was purchased by the war department a year ago for use as an air force technical training school. The building was vacated last month.

Simplified Tax Form For Report

Additional Facts Concerning Tax Statements To Be Filed By Sept. 15

EDITOR'S NOTE: Following is the third of a series of four articles prepared by the treasury department and distributed by International News Service. This, and the subsequent article, deal with questions involving the Sept. 15 declaration of estimated income, and are designed to aid individuals in filling out the form and making any necessary tax payments in order to get on a pay-as-you-go basis.

Instead of receiving an income tax bill from the collector of internal revenue in advance of the third quarterly payment due this year, a taxpayer who is required to file a declaration of estimated income and victory tax is allowed to make his own estimate of what he owes.

The declaration must be filed on or before September 15, and a payment of half of the balance of estimated tax due must be made at that time.

Persons, whose estimated income is not over \$10,000, have the choice of using two work sheets. One is a simplified form, containing a table which allows the taxpayer, after he has figured his total estimated income, to quickly compute his tax. The table makes allowance for earned income credit and for deductions such as interest, taxes and contributions.

Alternative Form

The other is an alternative form, which may be obtained upon request from the local collector, which permits a more precise computation of estimated tax. This is intended for use of taxpayers whose probable income is over \$10,000 or those with smaller incomes who expect to have unusually large deductions or otherwise desire to make a more detailed computation of their tax.

In either case, an amended declaration may be filed December 15, and adjustments in estimates and payments may then be made. When a final and accurate return is filed on March 15 next, credits or refunds will be made if there have been over-payments.

The alternative work sheet permits an estimate of each separate item of the income and allowable deduction, with an exact computation of the tax upon the resulting estimated net income, after allowance for personal exemption, credit for dependents and earned income credit.

Having estimated his total income and victory tax for this year, the taxpayer then compares this amount with his 1942 tax, and enters the larger figure on line 1 of the declaration form 1040-ES.

Deductions

From the estimated total tax on line 1 of the declaration there is to be deducted the amount expected to be paid at the source by withholding from wages, including the five per cent victory tax withheld in the first half of 1943 and the 20 per cent income tax withheld in the last half of the year.

There also will be deducted the cash payments made in March and June, 1943, on account of the 1942 tax, which will now be treated as payments on the 1943 estimated tax. The balance is the amount which remains to be paid in two equal installments in September and December on the current payment basis. Farmers, 80 per cent of whose gross income is derived from farming, may elect to wait until December 15 to file a declaration, and pay their estimated tax in a lump-sum at that time.

The alternative work sheet is a ready guide that will assist the taxpayer to make an accurate estimate of his tax on the basis of the facts peculiar to his own affairs.

EARL R. WIMER

CANDIDATE FOR
County Commissioner

Republican Primaries Sept. 14th

TO THE VOTERS of LAWRENCE COUNTY:—

Many people have asked me why the County Tax Millage is so low in Lawrence County when the County is actually using money at the rate of 9 1-3 mills per year. Here is the reason:

Total amount of money used by the county in the years 1940, 1941, 1942 including the cost of remodeling the Court House and the retirement of bonds (County purposes only) **\$1,749,658.17**
Equal To 28 Mills Of Taxation

Cash received by the Treasurer in 1940-41-42 not including a single dollar from Current Tax collections or any money for distribution to other taxing districts:

Cash in banks Jan. 1st, 1940 from previous administration	\$679,468.12
DELINQUENT County and Poor taxes of other years paid into the Treasury during 1940-41-42	351,290.11
Personal Property Taxes (4 mill tax on stocks, bonds, etc.)	195,428.46
Gasoline taxes from Comm. of Penna.	233,211.42
Fees collected by County offices (Sheriff, Prothonotary, Reg. and Rec., Treas.)	254,762.78
Refunds and Interest	30,289.38
Total Miscellaneous Receipts in 1940-41-42	\$1,744,450.27

Equal To 28 Mills Of Taxation

From the above figures you will see that there was available, within \$5000.00, enough money to operate the County without any current Tax collections.

The above figures are taken from the annual certified reports of the County Controller and can be verified by anyone who desires to do so.

Don't you think it would be a good plan to have on the board of three County Commissioners one member experienced in Finance, Operating Costs, Taxation and Office Management?

Don't you think after reading the above figures the taxpayer himself is entitled to the credit for the low County Tax Millage?

Mayor Takes Two Men Into Custody

Mayor Charles B. Mayne exercised the power of his office (superintendent of police) by arresting two alleged panhandlers and causing the arrest of a third over the week-end.

Two of the alleged panhandlers were fined, in default of which he ordered them sent to the workhouse for 90 days. They gave the names of Fallon and Jesse Short. Both said they were from the south.

The mayor also caused detectives to take into custody one "James Fairweather" on the same charge. He was fined \$10 which was paid. The first two named men were arrested Saturday and the third, Sunday.

INJURED BY AUTO

James Maravolo, aged 6 years, of Hillsville, was treated at the Jameson Memorial hospital, Sunday, for lacerations of the head and shoulders, sustained when he was struck by an automobile.

CHILD INJURED

Ralph Puckett, aged 8 years, of New Bedford was treated at the Jameson Memorial hospital for a laceration of the foot, received when he stepped on a piece of glass.

Market Sessions Resumed After Two-Day Layoff For Labor Day

(International News Service)
NEW YORK, Sept. 7.—A few selected industrial leaders managed to gain fractions on the stock market today as trading was resumed after the two-day Labor Day layoff. Elsewhere the list was mixed and narrow in dull, featureless dealings.

Specialties, building shares, oils, rail equipments and tobacco were steady with Pepsi-Cola, Johns-Manville, Texas Co., American Car & Foundry and American Tobacco B among the leaders showing fractional gains.

Following a mixed trend were the rails and steels. In the latter group, Bethlehem and U. S. Steel slipped behind minus signs after a higher opening.

Aviations were under pressure as were such leaders as Du Pont in the chemical group, International Telephone in the communications and General Motors in the auto shares.

Pfc. A. Semonozza Wounded In Action

Parents Notified That Son Is Wounded Somewhere In Southwest Pacific

Mr. and Mrs. Daniel Semonozza of Carbon were notified by the War Department Monday morning that their son, private first class, Alex Semonozza, had been wounded in action on July 30, somewhere in the Southwest Pacific.

Private First Class Semonozza has been in the service for the past 15 months, and for the past 15 months has been stationed somewhere in the Southwest Pacific. Prior to his induction he was employed at the Republic Steel company, Youngstown, O. He has two other brothers in the service.

Private First Class Semonozza was inducted into the army the same day as Pvt. Edward Spincic of Bessemer, and Pfc. Tony C. Paglia of Canyon street. Together they finished their basic training and were later sent overseas. The three became buddies and all three were wounded in action on the same day—July 30. The three families were notified by the war department in due time.

BEAN GUN—is U. S. war slang for a rolling field kitchen. When the army rolls, the Bean Gun rolls or the men can't fight. The Bean Gun is important. It keeps up morale. War Bonds are important too. They keep up morale and back the attack of our invasion armies.

ELLWOOD CITY NEWS

War Loan Workers To Meet Wednesday

ELLWOOD CITY, Sept. 7.—All workers who participated in the Second War Loan campaign last April and any new workers who wish to volunteer their services, are urged to attend the Third War Loan meeting in the municipal building council rooms tomorrow night at 7 o'clock.

Carl Stiefel, chairman of the campaign, stated that workers are greatly needed in every ward in town and that it would be a fine patriotic gesture for new workers to show up at the meeting. Ellwood City will be canvassed starting Thursday in an effort to raise \$980,000 and as the community has gone over the top on every campaign, it has put on for the war effort, it is expected to reach the goal.

O.C.D. WORKERS ENJOY PICNIC

Several Thousand At Cascade Park Outing Labor Day; Rain Interferes

Rain interfered with the city O.C.D. picnic held at Cascade Park Labor Day. However, before the clouds let loose with a barrage of rain several thousand persons were in Cascade Park.

About 2 o'clock races got under way but the rain interfered with the first aid demonstration which was held at the bandstand. It was in charge of Harry Cullford and Mrs. Ann Castele.

Several hundred of the O.C.D.'s journeyed then to the community theater where a splendid vaudeville show was staged. It lasted two hours.

Many families in the meanwhile held basket dinners in the grove.

The outing was in charge of City Director D. O. Davies and City Co-ordinator Frank Sargent.

Race winners—Jack Van Eman, Joseph Meyer, John Perretti, Betty De Simone, Dolores De Carbo, Harold Ferris, Dora May Egan, Nellie May Lutton, Dot Van Eman, Dick and Bob Bender, Marjorie Dietrich, Sally Pfeiffer, V. Mertwinsky, Mary Lutton, Rosena Corio, Robin Hall, Thomas Schley, Sandy Corbett, Harry Irwin, Harry Kennedy, Nancy McCune, William Johnson, Joan Llewellyn, Mrs. H. L. Albert, Mrs. Thomas Schley, Harry Albert, Theodore Robert, Betty Hallowitch, Barbara Llewellyn, Joseph Marnelli and Mrs. W. S. Crozier.

Coffee committee—Mrs. Jane M. Cochran, Mrs. Mary Llewellyn, Mrs. W. C. Grischke.

Joe Kelch was master of ceremonies of the vaudeville show, community house.

Churchill Back In Washington

(International News Service)
WASHINGTON, Sept. 7.—President Roosevelt and Prime Minister Churchill today resumed their post-war planning conferences at the White House on a theme of common citizenship between the United States and Great Britain, and a system of collective military security to prevent the reappearance of would-be world conquerors.

The British premier returned to Washington following his trip to Harvard University, where he was given an honorary degree, to round out a full month of activities on this side of the Atlantic.

BODY OF PITTSBURGH SOLDIER FOUND IN CREEK IN MILLVALE

(International News Service)
PITTSBURGH, Sept. 7.—Army officers and county detectives today started a twin investigation into the circumstances surrounding the death of Corporal Jack H. McConnell, 27, of Pittsburgh, who died last night at St. Francis Hospital shortly after being found unconscious in a stream.

The soldier, home on a weekend pass from Indiantown gap, was discovered lying in Girty's Creek in Millvale, but an examination revealed he had died of a broken neck.

Dr. T. T. Hemhold, of St. Francis Hospital, said Corp. McConnell probably was injured in a fall. Authorities are checking to learn if he was slugged and thrown over the bridge.

Yankees-Cards Nudge Closer To Big Loop Titles

St. Louis Squashes Our Buccos Twice; Yanks-Athletics Split

Cleveland Goes Into Second By Winning Two; Reds Grab Twin Bill

ADAMS TIES MARK; BUMS' STREAK HALTED

(International News Service)
NEW YORK, Sept. 7.—It looked for a while as if the New York Yankees were destined to lose their grip on themselves, and the American League lead, but those happy dreams of the Yankees' competitors are now gone. After taking two thrashings from the Washington Senators Sunday, and another in the first game of a twin bill yesterday, the Yankees turned on the club that handed them their third whipping, the Philadelphia Athletics, and gave them the benefit of full Yankee fury.

Both games had top-heavy scores, the A's taking the first game, 11 to 2, and the Yankees in the nightcap, 11 to 4.

The A's scored seven runs in the first three innings of the opener, piled insult upon insult as they tallied twice more in the fifth and twice again in the seventh.

The Yankees then waited, in the nightcap, for the very last inning to show their indignation, and in the ninth, they poured across six runs. A total of 23 runs and 47 hits were made in this twin bill.

Nats Beaten Twice
The Senators, who were brash enough to start the AL dreaming of a Yankee downfall, absorbed two beatings from the Boston Red Sox, 5 to 1 and 4 to 1. Tex Hughes limited the Senators to four hits in the opener, while his clubmates collected nine. Bobby Doerr's 16th homer with two aboard in the sixth gave the Red Sox the nightcap victory.

The Cleveland Indians scored two victories over the St. Louis Browns, winning the first game, 3 to 2 in ten innings, and capturing the five-inning nightcap, 2 to 0. With these triumphs, the Indians regained second place in the American League, something that seems to happen every other day.

In the National League, a couple of rookie southpaws hurled the St. Louis Cards to a double victory over the Pittsburgh Pirates, 3 to 2 and 6 to 2.

Al Brazie pitched the opening victory and Harry Brecheen copped the nightcap. Brazie scattered seven hits among the Pirates, while Brecheen stopped the Bucs cold with four.

The New York Giants broke the seven-game losing streak with a 6 to 3 win over the Philadelphia Phillies in the first half of a twin bill, then started a fresh string of defeats by losing 3 to 1 in 11 innings.

Adams Ties Record
Ace Adams made his first appearance on the New York mound in the opener, thus tying his own major league record for relief chores in a single season. Babe Dahlgren broke up the second game with an eleventh-inning homer with one aboard.

The Brooklyn Dodgers extended their winning streak to ten straight, the longest string in the Durocher regime, by beating the Boston

Braves, 7 to 3, then dropped the nightcap to end the winning string, 3 to 2, in ten innings.

Al Javery was the victim of a seven-run assault in the sixth inning of the Dodgers' opening victory, and in the second game two walks and a single by Chet Ross cooked Brooklyn's goose.

The Cincinnati Reds, struggling gamely for a chance at the pennant, took two games from the Chicago Cubs, 10 to 1 and 3 to 1. The Reds ran up a total of 16 hits in the first game, scoring six of their runs in the last three innings. The nightcap, a ten-inning affair, saw Claude Passeau charged with the loss after relieving Ed Hanzewsky in the last frame.

Doesn't Sound True, But It's The McCoy
HARTFORD, Conn., Sept. 7.—Back in 1922 Sam Hyman started on a pitching career in professional baseball. He had his fling and quit at the end of the 1933 season. In 1938 he came back for a brief whirl, quit again and settled down in his drug store at Hartford, Conn.

The other day he picked up the store and went out to the ball park to see Hartford play Wilkes-Barre in an Eastern league game. He planned to have a peaceful afternoon of it. But he found the Hartford club in desperate straits for pitchers.

Hyman hunted up Manager Del Bissonette. "I'm 44 years old," he said, "but I think I can help you out."

Bissonette all but begged the veteran. To make it legal, Hyman signed a contract and went out to the rubber to face the Wilkes-Barre Barons. The Baron sluggers were set for a field day. They began to get a little worried after two scoreless innings.

They were fit to be tied when the game ended, 8 to 2, in favor of old Sam Hyman and the Hartford Laurels.

The Homestead Grays defeated the Kansas City Monarchs 7 to 6 and 8 to 1 at Washington yesterday. Paige started the second game but was relieved. Temple has an inexperienced squad. Only one man ever has played football and he is Pinky Wood, a halfback who played one minute last season.

Fifteen Minor Leagues Pay '44 Membership, Protection Payment
(International News Service)
DURHAM, N. C., Sept. 7.—Fifteen of the 16 minor baseball leagues which suspended play for the 1943 season have paid membership and protection fees for 1944, in addition to the nine circuits currently operating. It was announced today by President W. G. Bramham of the National Association of Minor Professional Baseball Leagues.

Bramham, however, pointed out that the fact that the 15 leagues had qualified for next year did not amount to a guarantee they would operate, but their territories are protected if they desire to do so.

Knox College Cans Football

(International News Service)
GALESBURG, Ill., Sept. 7.—Shed a tear for "Old Siwash." Knox college officials today decided there will be no intercollegiate football at the school this year.

Although a new midwest conference rule allows use of freshmen not enough are enrolled to form a squad, Carter Davidson, president, said. Knox also has a large unit of army air force trainees and a small ROTC unit, but the army does not allow participation in college athletics.

The faculty athletic committee made no decision on baseball and spring sports, Davidson said.

Bronzers - United Set For Softball Series Inaugural

Five Game Classic Begins Wednesday At 5:45 On Gaston Park Field

Softball reaches its apex here Wednesday night when the Johnson Bronzes and United Engineering All-Stars stage the first of a five game series for the industrial championship of the city.

The setto, booked for Gaston park starting at 5:45 o'clock, is expected to lure more than 1,000 lovers of the fast game.

Both rosters are studied with local greats. The JB squad includes:

JB Squad
Ted Turco, Ted Koltz, Bob Pascarella, "Gaby" Kendra, "Moggy" Clark, Ben Gociano, Frank Merando, "Tex" Kelley, "Rye" Mangier, "Birdie" Biondi, Joe Lamarelli, Russ Headland, Greco Forconi, Frank Cople, "Monk" Rayner, Victor Ross, Jack Doot, Mike Kulick (player-coach), Ralph Tommello, "Chuck" Nicholson and Frank Pia.

Standouts on the UE aggregation: Tex Richards, Larry "Shorpan" Aven, Norm Bishara, Francis Liposky, Alexander, Craime, Russis, Morelli, Baker, Genocoe, Ed. Nahas, "Gaby" Decaprio, Sam Bullano, Frankie Colelio, "Lefty" Raymond, "Shorty" Bonk Duggan and McKibbin.

In all probabilities, the JB will select Bob Pascarella for the hurling chores while the UE will counter with Norm Bishara.

Outline Rules
All games will be seven inning affairs and played under official 1943 rules.

Impires will be announced at game time and are experienced softball men.

Spalding balls will be used exclusively with each team contributing a new ball every game.

Proceeds will go to Patsy Russo, of the United Engineering, who was seriously injured recently.

Unprecedented interest is being evinced in the blue classic. Record breaking crowds are predicted.

Paced by two pitching standouts Bishara and Liposky, the United outfit rules as a heavy favorite to cop the bunting.

Tony Pegnato, Don Edgar and "Tip" Richards are directing the UE activities while Joe Diffely, JB personnel manager, is in charge of the aggregation, assisted by Mike Diffely and Joe Bosco.

SPORTS RAMBLINGS

Monday's wash on Tuesday:—

Bits clipped out of letters to this desk from local boys in service:

Al Lastoria, former Croton A. C. baseball luminary, and George Mariacher have mailed best wishes to New Castle high's 1943 eleven from Seymour Johnson field, North Carolina. "Although we will miss our first home game in six seasons, we're looking forward to following 'Canes in the The News. Forward an hello to the folks back home for us," the pair writes.

To Lastoria-Mariacher: Scores of N. C. Johnstown games: 1934, N. C. 0, Johnstown 13; 1935, N. C. 2, Johnstown 7; 1939, N. C. 7, Johnstown 12; 1940, N. C. 13, Johnstown 0. . . . New Castle's 17 Marines stationed in Philly, through their acting secretary, Pfc. Fred Maciarello, "wish New Castle high an undefeated and untied season."

In an interesting letter from Daniel Field, Augusta, Georgia, Frank Dombroski, who earned his grid chevrons at Ne-Ca-Hi, reports this his "physical training instructing job is most enjoyable. 'I'm helping to train soldiers for combat duty as well as preparing myself. Participating in all sports in camp. Say hello to everybody," the popular sports son states.

Bessemer high swings into its "T" formation for the first time this season on Saturday, facing Sharpville in an owl tilt billed away from home. . . . New Castle high's 1942 outfit won nine games, lost to Warren 7-6, and was tied by Sharon 13-13. This is printed for the benefit of more than a dozen persons who ask the same question. . . .

Hunt National Tennis Champ

Young Navy Lieutenant Whips Coast Guardsman Jack Kramer; Brough-Betz Win

By JOHN CASHMAN
INS Sports Writer
FOREST HILLS, N. Y., Sept. 7.—A young navy lieutenant who absorbed two tournament beatings this year in trying to round into shape in only a month, Joe Hunt of Annapolis, Md., today is the new national men's singles tennis champion. Equally as gallant in defeat is the man who lost out in the final round of the singles title yesterday, Coast Guardsman Jack Kramer of Los Angeles, who was beaten, 6-3, 6-8, 10-8, 6-0.

Not since it took Johnny Doe and Frankie Shields 30 games to decide a set has a set been as long as the third of the 1943 national singles. Hunt endeavored to rattle his adversary when he delayed service three times in the 11th game.

Suffers Charley Horse
After putting over the deciding point, Hunt suffered a charley horse in his left leg and slipped to the turf, grasping his leg in pain, while the crowd gaped in astonishment.

It was in this position that the young naval officer received congratulations on his first tennis championship.

Preceding Hunt's victory, Louise Brough of Beverly Hills, Calif., and Margaret Osborne of San Francisco won the women's doubles title from Pauline Betz of Los Angeles and Doris Hart of Miami, 6-4, 6-3. The outcome of the match elicited surprise, since both losers and champions, Miss Betz holding the women's singles title and Miss Hart the girls' crown.

The victorious Miss Osborne then combined with William Talbert of Indianapolis to retain the mixed doubles championship against Segura and Miss Betz, 10-8, 6-4.

Oak Street Wins Playground Title
Oak Street Pirates captured the City Playground league title by defeating Big Run in the third game of the series, 9-3.

B. Morgan and A. Fontanelli formed the winning battery while Jacobs and Beynon were the losers. Members of the championship team include:

A. Fontanelli, T. Fontanelli, Stoner, Copley, J. Janacene, D. Janacene, Padula, J. Vascetti, D. Vascetti, Cuscino, Camera, B. Morgan, D. Morgan, Gifford, Pander, batboy, Piccarino and Manager "Bill" Morgan.

'Canes Resume Stadium Drills

Undergo Light Practice Monday; Season Inaugural Here On Friday Night

Limited to a light morning session yesterday, New Castle high's grid army resumes intensive training this afternoon at Taggart stadium.

The big 'Cane squad opens the 1943 season Friday night, battling Grove City at Taggart stadium. The starting time has not been announced as yet.

After hitting down Saturday afternoon from Muddy Creek Falls where they spent the entire week, the quad enjoyed a well deserved rest and reported to the field early yesterday morning.

Signal drill and a bit of touch football comprised yesterday's workout. The practice lasted about an hour and a half.

Camp Game Exciting
Last Saturday's camp game saw the first pile up a three touchdown edge over the seconds. As in past years, the clash was stuffed with excitement. The losers gave the vastly an exceedingly stiff assignment.

After daylight practices today and Wednesday, the 'Canes are slated for an owl drill Thursday night.

Faculty Manager Ralph H. Gardner today stated that "everything is set for the opener."

Ticket Manager Robert Mills reported that the advance ticket sale is "surprisingly large." Season tickets are on sale at The Sporting Goods Store, 105 North Mercer street.

Grove City high is leaving no stone unturned as it prepares for its inaugural.

Mercer county representatives indicate that the Grovers will present a formidable eleven.

The Grovers sport a 15-game winning streak.

Stage Hand, Track Great, Is Auctioned In Big Bond Rally

ROCKVILLE CENTER, N. Y., Sept. 7.—Stage Hand, famous race horse who captured the Santa Anita Handicap and Santa Anita Derby in 1938, had dual reasons to be proud today. Not only was he the sire of an up-and-coming colt, but he contributed \$300,000 to the war effort.

The colt, donated by Col. Maxwell Howard, was "auctioned" off at a rally inaugurating the U. S. Treasury Department's third war loan drive, each chance-taker being obliged to buy a \$1,000 war bond.

Winner of the thoroughbred was Charles W. Gerndt, president of the Rockville Center Taxpayers association. A brush manufacturer who is entirely without a knowledge of horses, said he didn't know what he would do with the colt.

The baby equine, christened "Stage Bond", in the stunt staged jointly by the Office of War Information and the War Manpower Commission, will be ready for its first race in January, 1944.

COZY CORNERS BEAT FANNINS
Pushing across three runs in the seventh, the Cozy Corners subdued the Fannins, 6-4, Sunday afternoon on Marshall field.

The victors piled up a 3-0 edge by the fourth and were never in danger of relinquishing the advantage. The Fannins tallied once in the sixth and three times in the seventh.

This contest closed the 1943 season for the Legion loop rivals.

Score by innings:

Cozy Corners . . . 100 200 3—6 4 2
Fannins . . . 000 001 3—4 5 3

BETTING MARK SET

(International News Service)
CHICAGO, Sept. 7.—Washington Park officials today reported an all-time record high single-day mutual handle for Chicago tracks of \$1,440,634 in yesterday's closing program, featured by the \$50,000-added Washington Park handicap.

Highest previous figure was on Classic Day at Arlington Park in 1930 when \$1,338,803 went through the mutuel machines.

The handicap wound up in a dead heat, with L. B. Mayer's Thumbs Up, third choice in the field of 12, sharing honors with a 24 to 1 shot, Royal Nap, owned by the Lazy P stable.

WOOD-DEMARET WIN
MINNEAPOLIS—Craig Wood and Jimmy Demaret today could thank a sensational rally in the last 36 holes for their championship victory and the \$1,200 first money in the Golden Valley invitational golf tournament.

Wood and Demaret turned in a best-ball 67 to defeat Harry Cooper and P. Chick Harbert, 2 up.

Third place went to Lloyd Mangrum and Sammy Byrd with plus 0.

GRABS CHESS CROWN
The Pennsylvania state chess federation champion today was Thomas Gutekunst, 34, of Catsaqua, who vanquished a field of 30 contestants to win the title.

Gutekunst, advertising salesman for an Allentown paper, finished with a total of six points on five wins and two draws.

STATE DRILLS
STATE COLLEGE, Pa.—A wide open battle is developing for the positions not yet clinched as Penn State sets its football sights for the season's opening assignment against Bucknell two weeks from Saturday.

Bass Shipment To Arrive Wednesday
Hans Drio, secretary of the Lawrence County Sportsmen's association, reported today that the state fish commission had notified him 3,500 black bass would arrive at Wurttemberg at 10:45 a. m. Wednesday for the stocking of the Van Gorder dam, McConnell's mill and Kennedy's mill dams.

Shiff, Welsh and Wiesmiller, former Penn grid stars, are with the Navy trainees at Columbia.

Business, Social Groups Solicited By Special Teams

Third War Loan Drive Begin- ning Thursday Further Organized

Special groups in the city and the county will be solicited in the Third War Loan drive, supplementing the house-to-house canvass, it was announced today by Paul G. Dingley, publicity chairman. Teams are organized and ready to begin their work when the campaign opens on Sept. 9 to raise \$6,307,000 in war bonds to "back the attack".

The groups and the captains of teams which will solicit them are as follows: mercantile, W. E. Langau; fraternal organizations, J. J. McCoy; government employees, including federal, state, county and city, W. J. Hanna with Kiwanis club as his team; business and professional, Glenn McCracken and the Lions club; Alvin Shenkin and David Victor will head the Blue Birth team. Corporation soliciting will be in charge of R. C. Lowe, schools, Frank L. Burton, and South Side merchants, B. J. Biondi and Sam Basano.

Moose Members Enjoy Picnic

Annual Event Takes Place At Idlewood Park Sunday Afternoon

Members of the Loyal Order of Moose, with their families, numbering close to 3000, were in attendance at the annual picnic of the order at Idlewood Park on the County Line road Sunday afternoon.

Under the direction of Geno Veri, Sam Wood, Lloyd McKinnon and Joe Todd, an interesting sports program was run off during the afternoon.

Fred DeFlore and Fred Druschel had charge of the refreshments, and Pat Kearns had charge of the cats, several hundred dozen ears of corn being devoured during the afternoon, along with other tasty delicacies prepared by Kearns and his crew.

Other committee members included Secretary Harold Shaffer at the gate, entertainment and dance by D. Jones, the music being furnished by Steve Griffith and a group of the members, who kept things moving along on the dance floor with their peppy music.

In the moshball game between the married and single men, the married men won by a score of 18-13, the benefits being captured by Frank Kelly, with "Tick" Phillips heading the losers.

The war bond given as a door prize went to Harold Fauley.

When knighthood is conferred on a British subject it does not grant any special privilege other than the social one of precedence. A knight ranks after a baronet. The title cannot be transferred to heirs.

State Campaign In Final Week

Extremely Light Vote Is
Forecast At Primaries
Next Tuesday

ONLY ONE POST IN STATE AT STAKE

By TONY ZECCA
(N. S. Staff Correspondent)

HARRISBURG, Sept. 7.—The 1943 primary election campaign entered its final week today with forecasts for an "extremely light" vote next Tuesday at the polls.

Only one statewide post, that of superior court judge, was at stake in Pennsylvania's off-year election and primary candidates of the various parties were unopposed. Assured of nomination for the November general election were Judge Claude T. Reno, of Allentown, Republican incumbent, Judge Curtis Bok, of the Philadelphia common pleas court, Democrat; and Charles Palmer, Ridley Park attorney, Prohibitionist.

Ballots will also be cast in the primary for 28 mayoralty posts, 49 judicial positions and hundreds of county and local offices. A special election will also be held in conjunction with the primary to elect four members of the House to fill vacant seats. There will be no contest, however, for no Democrats have been nominated. The Republican "victors" are not expected to take their seats in the general assembly as their terms will end December 1, 1944, a month before the legislature reconvenes for its biennial session.

Light Vote Seen
Gene D. Smith, director of the state elections bureau, predicted that there would be "an extremely light vote." It was anticipated that not much more than 25 per cent of the electorate, generally apathetic over the election because of the war, would go to the polls.

The Republican vote is expected to exceed the Democratic balloting as the G. O. P. holds a majority of more than 650,000 in registered voters. Smith said party registrations at the close of 1942 were 2,603,104 for the Republican party and 1,948,372 for the Democratic party, a Republican majority of

654,732. Figures for this year were not available.

Despite the lack of interest, thousands of candidates are entered for hundreds of local offices, among them that of prothonotary, register of wills, court clerk, county commissioner, district attorney, justice of the peace, recorder of deeds, school board official and many others.

Most important of the mayoralty contests was that in Philadelphia where Democrats hope next fall in the general election to overturn the long standing Republican administration. The major party candidates have no opposition in next week's primary and are therefore assured of nomination. They are Acting Mayor Bernard Samuel, Republican, and William C. Bullitt, former ambassador to Russia and France, Democrat. Gov. Edward Martin carried the Republican stronghold last fall by only 154 votes.

The Republican candidates in the special legislative election, all without opposition, are Charles C. Smith, 15th district, and Joseph B. Cassidy and Joseph J. Feola, from the 5th District, all of Philadelphia, and W. Mack Guthrie, of Armstrong County.

Legion Has Books For Men In Navy

Selectees Going Into Navy
And Marine Corps Can Get
Books at Legion Home

Because of the fact that the men going into the Navy and Marine Corps do not leave in groups like the men in the army, arrangements have been made to keep a supply of books, "Fall In" which are given to all men going into the service, at the Legion Home.

Men in uniform home on furlough who have never received a copy of this booklet, along with Selectees going into these branches of the service mentioned above can secure a copy of the booklet by applying at the Legion Home, 134 North Jefferson street.

4-H CLUBS

Big Beaver 4-H Club
Big Beaver 4-H club met at the home of Kathryn James on August 27 at 10 a. m. There were seven members present. Miss Simpson checked the garments.

The next meeting will be held at the home of Dorothy, Margie and Lillie Mae McAnis on Sept. 9 at 4:45.

Plans for the 4-H roundup were talked over.

The girls are to have their skirts and dress suits done by the next meeting.

BIGGER BOMBERS TO AID INVASION

Gen. Arnold Says Gigantic
Bombers To Spearhead
Western Europe
Invasion

(International News Service)
LONDON, Sept. 7.—An open hint that secret new bombers of gigantic size, dwarfing even the modern Flying Fortresses, will spearhead an invasion of western Europe was made by Gen. Henry H. Arnold, chief of the American Army Air Forces.

Gen. Arnold, who arrived in Britain recently, discussed the anticipated opening of a new front in western Europe with correspondents in London and predicted:

"Bombers with more and heavier guns and more than twice the bombardment of Flying Fortresses will be ready when and where they are needed."

He paid flowing tribute to the work of the Eighth American Air Force in this theater, now hammering relentlessly at Germany and occupied Europe.

"When the time for continental invasion comes we will do what the tactical air force in North Africa did so brilliantly in Tunisia and Sicily," Gen. Arnold declared.

The smashing daylight attacks of the Eighth Air Force have helped the Russians by forcing the Germans to pull their first-line fighters out of the east to try to stop the ever deepening, penetrating Fortress raids," he added.

Don't Buy Other Goods To Get Scarce Things, Board Says

Forcing Customers To Buy
Extra Merchandise To Get
Butter, Etc., Is Illegal

It is illegal and punishable for any merchant to force a customer to buy extra merchandise to get some article that is scarce, the Price Panel of the War Rationing Board for New Castle stated today.

Members of the board were in Pittsburgh conferring with OPA officials last week, and one of the things stressed was this fact. Anyone who is forced to buy such merchandise is asked to register a complaint with the board. Complaint forms are available at the Panel Board Office in the Pearson Street School Building for those who desire them.

The regulation governing this in Bulletin 35, is as follows:

"Individual price increase prohibited. You must not evade any provisions of this regulation, or an order issued in connection therewith by any stratagem, scheme, or device. You must not, for instance, as a condition of selling any particular food, require a customer to buy anything else; for example, you must not require a customer to buy a dozen of eggs to get a pound of bacon. Such evasions are punishable as violation of the regulation."

After September 15, the Panel Board will have copies of Bulletin 35, showing how to mark ceiling prices on all foods, and other important information. This bulletin will be shorter than Bulletins 422 and 423, which have been in use heretofore.

Officers Installed For U.S.M.C. League

Newly elected officers of the U. S. Marine Corps league were installed at a meeting Sunday evening in the home of Trustee Ralph Maturo of Pine street.

Since there are at present over 500 Marines in service from the Lawrence county detachment, it was decided to enlarge the local organization and increase its activities of welcoming and assisting Marines returning here, whether on furlough or discharge.

The new commandant, Peter J. McGinty, appointed Theodore Castelle as adjutant and paymaster, and W. F. Blanning as chief of staff.

ARMY WILL BUY 10,000,000 POUNDS OF DRESSED TURKEY

(International News Service)

WASHINGTON, Sept. 7.—The OPA today authorized the army to pay eight and one-half cents a pound above the established ceiling in order to facilitate the purchase of 10,000,000 pounds of dressed turkey by the end of September for shipment abroad for the holiday dinners of American soldiers.

Since all turkey on the market will go to the army this month under orders of the war food administration, the action will have no effect on civilian prices. The army was authorized to pay for dressed turkeys up to eight and one-half cents a pound above the maximum base price established for live birds.

Expecting a Baby?

Mother's Friend helps bring ease and comfort to expectant mothers.

MOTHER'S FRIEND, an exquisitely prepared emollient, is useful in all conditions where a bland, mild anodyne massage medium in skin lubrication is desired. One condition in which women for more than 70 years have used it is an application for massaging the body during pregnancy. It helps keep the skin soft and pliable, thus avoiding unnecessary discomfort due to dryness and tightness. It refreshes and tones the skin. An ideal massage application for the numb, tingling or burning sensations of the skin. For the tired back muscles or cramp-like pains in the legs. Quickly absorbed. Delightful to use.

Mother's Friend

Highly praised by users, many doctors and nurses. Just ask any druggist for Mother's Friend—the skin lubricant. Try it tonight!

LONG on Expenses? SHORT of Cash?

TODAY'S increased cost-of-living and the new Pay-As-You-Go Tax leave a lot less from each pay check for everyday needs. And when expenses like dental and medical care, house repairs or insurance premiums come along, they put a dent in the budget. In such cases, have you ever considered the advantages of a Personal loan? It provides \$10 to \$250 or more repayable in sensible monthly amounts.

Loans at Personal are arranged simply and privately on your furniture, auto or signature. Co-signers are seldom required. To get a loan, come in, phone or write.
